

Tippecanoe County Commisioners Meeting Minutes Index
1826-1873

Indiana County Commissioners are the executive body of the county. They are responsible for county buildings, lands and property, auditing and authorizing claims against the county, receiving bids and authorizing contracts, overseeing construction and maintenance of roads and bridges in addition to other duties. Before the creation of Township Trustees and Township Boards, County Commissioners were also responsible for poor relief. Many of the people named in this index are requesting payment for their services to the county.
